

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

REGION IX

75 Hawthorne Street
San Francisco, CA 94105-3901

DEC 18 2014

Ms. Eugenia Quintana
Environmental Department Manager
Air & Toxics Department
Navajo Nation Environmental Protection Agency
Box 339
Window Rock, Arizona 86515

Dear Ms. Quintana:

The U.S. Environmental Protection Agency, Region 9 (EPA) has completed our review of the application for an acid rain permit renewal for Navajo Generating Station in Page, Arizona. The draft acid rain permit is enclosed and should be included in the draft title V permit as an attachment. Any comments received during the permit's public review period related to the acid rain program should be directed to EPA.

At the end of the public review period, EPA will issue the final acid rain permit, which should similarly be included in the final title V permit as an attachment.

Please have your staff work with Geoffrey Glass of our Permits Office to integrate the acid rain and title V permitting processes. He can be reached at (415) 972-3498 or Glass.Geoffrey@epa.gov.

Sincerely,

Deborah Jordan
Director, Air Division
